SUMMARY

Fourth-year Economics student with a strong analytical foundation in quantitative modeling, database engineering, and data visualization (Excel, Stata, Python, PostgreSQL, Power BI), applied to real-world economic problems. Demonstrates ability with practical experience in academic support, banking operations, and corporate client relationship management.

EDUCATION

Bachelor of Economics with Data Analytics, International University (VNU-HCM)

Sep 2023 – Sep 2027

- **GPA:** 3.62/4.0, Good Student Certificate (Academic Year 2024–2025)
- **Introductory Econometrics:** 4.0/4.0, **Time Series Econometrics:** 3.5/4.0

WORK EXPERIENCE

Corporate Banking Intern, Military Bank (Tan Cang Branch)

May 2026 – Present

- Prepared corporate financial analysis reports, conducted credit risk assessments alongside RMs, and tracked execution of trade finance transactions and international payment services.
- Engaged with 50+ corporate clients on trade finance and banking guarantee products while conducting market research on construction sector to qualify high-potential prospects, strengthening client acquisition, retention, and team's NTB pipeline.
- Automated tax ID lookups for 3,000+ customer records in accounts receivable/payable reconciliation files using Python (Selenium, openpyxl), accelerating KYC data completeness for corporate banking clients.

University Teaching Assistant & Tutor, International University (VNU-HCM)

Sep 2024 – Present

- Facilitated 3 courses (Introduction to Macroeconomics, Statistics for Business, Intermediate Microeconomics) serving an estimated 150+ students per semester across lecture and assessment functions.
- Sourced and prepared economic datasets for faculty research and developed Excel-based exercises for Statistics for Business, translating quantitative concepts into practical, hands-on learning materials.
- Delivered personalized academic guidance in Mathematical Proofs, Microeconomics, and Mathematics for Business.

PERSONAL PROJECTS

Techcombank Annual Financial Report (Power BI Dashboard)

Mar 2026 – April 2026

- Built a structured ETL pipeline in Power BI on 13 years of Techcombank financial data (2011–2023).
- Authored DAX measures for YoY growth, TOI, OPEX, CIR, ROE, ROA, and NIM.
- Produced visualizations (combo chart, scatter plot, gauge chart) surfacing profitability and cost efficiency trends.
- **GitHub:** github.com/quanghai381/techcombank-financial-dashboard

ASEAN Macroeconomic Indicators (Full-Stack Web Application)

Feb 2026 – Present

- Developed and deployed a full-stack web application demonstrating macroeconomic data across 10 ASEAN countries using Python (Flask), PostgreSQL, JavaScript and Railway.
- Modeled a hybrid Star/Snowflake schema with 3NF normalization, range partitioning, and index clustering across 3 fact tables and 7 dimension tables, reducing query overhead by 91.8%.
- Created interactive data visualizations using Chart.js (line chart, scatter plot, choropleth map chart).
- **GitHub:** github.com/quanghai381/asean-economic-indicators

SKILLS & INTERESTS

Languages: English (IELTS 6.5), Vietnamese (Native), Japanese (Conversational).

Technical Skills: Microsoft Office (Word, Excel, PowerPoint), Power BI, PostgreSQL, Python (NumPy, SciPy, Pandas, Matplotlib, Statsmodels, Scikit-learn), Stata.

SOCIAL ACTIVITIES & LEADERSHIP

Head of Finance Department, Enactus IU Vietnam

Nov 2024 – Present

- Spearheaded fundraising efforts that grew capital from 1,000,000 VND to 2,000,000 VND in profit through project budget planning and strategic sponsorship acquisition.
- Maintained financial accountability in multiple student-led social impact initiatives by collaborating with cross-functional teams to allocate resources effectively.
