Summary

Third-year Economics student specializing in data analysis, with practical experience in quantitative modeling, database engineering, and data visualization using Excel, Stata, Python, PostgreSQL, and Power BI. Demonstrated ability to apply statistical methods to real-world problems across both academic support and financial operations.

Work Experience

University Teaching Assistant, International University (VNU-HCM)

Jan 2025 – Present

- Supported **3 courses** (Introduction to Macroeconomics, Statistics for Business, Intermediate Microeconomics) serving an estimated **150+** students per semester across lecture and assessment functions.
- Sourced and prepared economic datasets to support faculty research and developed Excel-based exercises for Statistics for Business, translating quantitative concepts into practical, hands-on learning materials.

University Department Tutor, International University (VNU-HCM)

Sep 2025 – Jan 2026

- Delivered personalized academic support to undergraduate students in Mathematical Proofs, Microeconomics, and Mathematics for Business.
- Broke down complex theoretical concepts into accessible explanations, improving student comprehension and problem-solving confidence on a one-on-one and small-group basis.

Education

Bachelor of Economics with Data Analytics, International University (VNU-HCM)

Sep 2023 – Sep 2027

- GPA: 3.6/4.0 (86.8/100)
- Introductory Econometrics: 4.0/4.0 (90/100), Time Series Econometrics: 3.5 (86/100)
- Good Student Certificate, Academic Year 2024–2025

Social Activities & Leadership

Head of Finance Department, Enactus IU Vietnam

Nov 2024 – Present

- Spearheaded fundraising efforts that grew capital from **1,000,000 VNĐ to 2,000,000 VNĐ in profit** through project budget planning and strategic sponsorship acquisition.
- Maintained financial accountability in multiple student-led social impact initiatives by collaborating with cross-functional teams to allocate resources effectively.

Personal Projects

ASEAN Macroeconomic Indicators (Full-Stack Web Application)

Feb 2026 – Present

- Designed and developed a full-stack web application **demonstrating macroeconomic data** across 10 ASEAN countries using Python (Flask), PostgreSQL, and JavaScript.
- Created **interactive data visualizations** using Chart.js (line chart, scatter plot, choropleth map chart).
- Deployed the application on Railway with a cloud PostgreSQL instance with CSV/Excel format data export features.
- Live:** web-production-360b6.up.railway.app
- GitHub:** github.com/quanghai381/asean-economic-indicators

Techcombank Annual Financial Report (Power BI Dashboard)

Mar 2026 – April 2026

- Built a structured **ETL pipeline** in Power BI on 13 years of Techcombank financial data (2011–2023) and authored **DAX measures** for YoY growth, TOI, OPEX, CIR, ROE, ROA, and NIM.
- Delivered visualizations (combo chart, scatter plot, gauge chart) surfacing profitability and cost efficiency trends.
- GitHub:** github.com/quanghai381/techcombank-financial-dashboard

Skills & Interests

- Languages:** English (IELTS 6.5), Vietnamese (Native).
- Technical Skills:** Microsoft Office (Word, Excel, PowerPoint), Power BI, PostgreSQL, Python (NumPy, Pandas, Matplotlib, Statsmodels), Stata.
